

Fact Sheet

LATA/Parallax Portsmouth, LLC

Who is LATA/Parallax Portsmouth, LLC?

LATA/Parallax Portsmouth, LLC (LPP) is performing the environmental remediation work at the Portsmouth Gaseous Diffusion Plant site in Piketon, Ohio after being awarded the contract in 2005 by the U.S. Department of Energy (DOE). LPP was formed as a small business venture by two of the nation's outstanding environmental services and nuclear operations companies, Los Alamos Technical Associates (LATA) and Parallax, Inc. The LPP contract is currently through June 2010. LPP self-performs the majority of the work with safety as its priority and efficiency as its objective. The LPP team currently includes subcontractors CDM, Stoller, Enercon, and SAA Solutions.

Introduction to LATA/Parallax Portsmouth, LLC:

LPP is a single-purpose environmental remediation Limited Liability Company:

- *Dedicated to providing remediation services to the DOE at the Portsmouth Gaseous Diffusion Plant site,*
- *Formed by two small businesses that have provided outstanding environmental services and nuclear operations across the DOE complex for over 30 years, and*
- *Managed by a team focused on getting the job done safely and efficiently.*

LPP is responsible for planning, managing, integrating, and executing the following work:

- *Environmental restoration of contaminated areas,*
- *Monitoring and reporting on environmental compliance,*
- *Disposition of legacy radioactive waste,*
- *Decontamination and decommissioning of inactive facilities,*
- *Disposition of highly enriched uranium, and*
- *Operation of the groundwater treatment facilities.*

Our management approach is focused on:

- *Safe, reliable transfer of workforce, processes, and plant components,*
- *Continuity of operations,*
- *Incorporate efficiency into plans, activities, tools, and resources, and most importantly*
- *Frequent and open communication to maintain morale and confidence within the client, workforce, and stakeholder communities.*

Corporate Commitments:

- *Employment of approximately 400 staff plus niche subcontractors and vendors,*
- *Support of long-term economic development in southeast Ohio,*
- *Offer opportunities for career development through training and openings in our various member offices nationwide,*
- *Corporate and employee involvement in local community activities,*
- *Encourage high school students to pursue educational opportunities in the science, math and engineering fields.*
